LIST OF CONTENTS

Number 1

Chandra R. Bhat and **Sujit K. Singh**	1	A comprehensive daily activity-travel generation model system for workers
Rodrigo A. Garrido	23	Spatial interaction between the truck flows through the Mexico–Texas border
Jan C. Fransoo and **J. Will M. Bertrand**	35	An aggregate capacity estimation model for the evaluation of railroad passing constructions
	51	Recent doctoral dissertations
	VII	Forthcoming Papers

Number 2

Randolph W. Hall	67	Scheduling and facility design for transit railcar maintenance
Doohee Nam and **Fred Mannering**	85	An exploratory hazard-based analysis of highway incident duration
Heloisa M. Barbosa, Miles R. Tight and **Anthony D. May**	103	A model of speed profiles for traffic calmed roads
Robert A. Johnston and **Tomas de la Barra**	125	Comprehensive regional modeling for long-range planning: linking integrated urban models and geographic information systems
Wei-Hua Lin and **Hong K. Lo**	137	Are the objective and solutions of dynamic user-equilibrium models always consistent?

Number 3

M.L. Tam and **William H.K. Lam**	145	Maximum car ownership under constraints of road capacity and parking space
A. Schafer and **David G. Victor**	171	The future mobility of the world population
H. Yang and **Q. Meng**	207	Highway pricing and capacity choice in a road network under a build–operate–transfer scheme

Number 4

P.L. Mokhtarian and **M.N. Bagley**	223	Modeling employees' perceptions and proportional preferences of work locations: the regular workplace and telecommuting alternatives

H.S. Mahmassani and **R.-C. Jou** 243 Transferring insights into commuter behavior dynamics from laboratory experiments to field surveys

J. Fitzgerald, D. Shaunesey and **S. Stern** 261 The effect of education programs on paratransit demand of people with disabilities

S. Powell and **H.Y. Wong** 287 A deterministic approach to evaluating transport infrastructure at a terminus

303 Acknowledgements

307 Forthcoming Papers

Number 5

SPECIAL ISSUE
POLICY APPLICATIONS OF TRAVEL BEHAVIOR MODELS

H.S. Mahmassani 307 Policy applications of travel behavior models

T. Gärling, A. Gärling and **A. Johansson** 309 Household choices of car-use reduction measures

S. Marshall and **D. Banister** 321 Travel reduction strategies: intentions and outcomes

T. Yamamoto and **R. Kitamura** 339 An analysis of household vehicle holding durations considering intended holding durations

J. de Dios Ortúzar, A. Iacobelli and **C. Valeze** 353 Estimating demand for a cycle-way network

J. Eliasson and **L.-G. Mattsson** 375 A model for integrated analysis of household location and travel choices

A. Nuzzolo, U. Crisalli and **F. Gangemi** 395 A behavioural choice model for the evaluation of railway supply and pricing policies

405 Forthcoming Papers

Number 6

A.D. May and **D.S. Milne** 407 Effects of alternative road pricing systems on network performance

R.F. Benekohal and **W. Zhao** 437 Delay-based passenger car equivalents for trucks at signalized intersections

E. Feitelson and **I. Salomon** 459 The implications of differential network flexibility for spatial structures

S.M. Easa and **Y. Hassan** 481 Development of transitioned vertical curve I Properties

I Forthcoming Papers

Number 7

M. Powell	497	A model to represent motorcycle behaviour at signalised intersections incorporating an amended first order macroscopic approach
S. Leitham, R.W. McQuaid and **J. D. Nelson**	515	The influence of transport on industrial location choice: a stated preference experiment
V.F. Hurdle and **B. Son**	537	Road test of a freeway model
S.M. Easa and **Y. Hassan**	565	Development of transitioned vertical curve II Sight distance
	585	Forthcoming Papers

Number 8

A.C. Regan and **T.F. Golob**	587	Trucking industry perceptions of congestion problems and potential solutions in maritime intermodal operations in California
J.L. Yee and **D.A. Niemeier**	607	Analysis of activity duration using the Puget sound transportation panel
D. Wang, A. Borgers, H. Oppewal and **H. Timmermans**	625	A stated choice approach to developing multi-faceted models of activity behavior
		Book reviews
J. Pucher	645	*Driving Forces: The Automobile, Its Enemies and the Politics of Mobility*
L.P. Kostyniuk	648	*Theoretical Foundations of Fravel Choice Modeling*
M.L. Tischer	651	*Panels for Transportation Planning: Methods and Applications*
R.W. Novaco	654	*Traffic and Transport Psychology: Theory and Application*
C.P. Donovan	657	*Transport Policy (The International Library of Comparative Public Policy, No. 10)*
T.L. Friesz	658	*Advanced Methods in Transportation Analysis*
	661	Forthcoming Papers
